

Brasilia

Fernando and Humberto Campana

General description:

Table characterized through an irregular top available in various sizes, realized thanks to the skillful overlapping assembly of many pieces of mirrored coloreflex methacrylate. Its structural system is composed of inclined legs (available in various heights) and of an aluminium plate where the pieces of coloreflex are placed on.

This top projects upwards the concentration of light, and creates pleasant reflections.

Technical description:

Tables in 3 shapes, 3 dimensions and 2 heights.

Little tables in 3 heights.

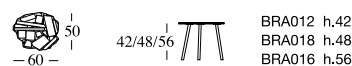

Top in aluminum, covered of laser cut mirrored pieces of Coloreflex methacrylate, cleaned and placed totally by hand.

Legs in brushed polished aluminium.
