

Croma

Massimo Morozzi

General description:

Tables realised with top in a temperate plane glass plate of big thickness (extra light or natural) painted in many colours and available in various sizes and geometrical shapes – round, squared, elliptical and rectangular. Legs are essential cylindrical columns of a great diameter, characterized through a big base and realized in aluminum, natural or painted.

Technical description:

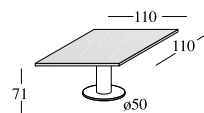

Top in extralight glass, thickness 15 millimeters, painted in the colours of the sampler.

Bases in aluminum, in polished or matt finishing – this one available for 50 cm diameter version – or painted in any of the colour of the collection for any version.
