SOFAS

Patricia Urquiola

Description

The result of field experimentation in the field, Patricia Urquiola's work marks another visitation of the interlacing theme. Interlaced backs in polyethylene fibre matched with base in galvanized steel with polyester powder painting produce a modular element of two different sizes. The pieces can be easaily combined to form linear, corner, terminal elements or chaise longue. The ottoman-small table pieces can be used between seats, or to add depth to sofas.

Technical information

Back frame:

aluminium

Seat frame:

galvanized steel

Frame finish:

polyester powder painting

Interlacing:

polyethylene

Seat cushion:

shaped polyurethane, cover in water repellent polyester fibre

Back cushion:

polyester fibre, cover in water repellent polyester fibre

Service element top (TR90):

HPL laminate

Ferrules:

thermoplastic material

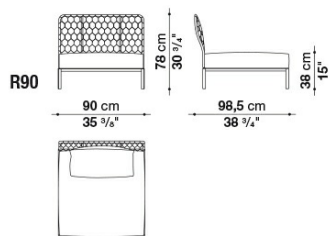

Cover cloth:

polyester on synthetic support

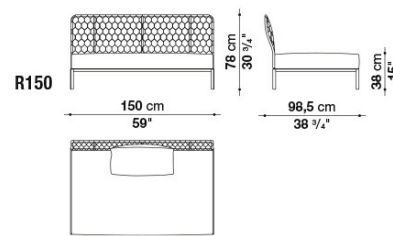

Cover:

fabric in limited categories

B&B Italia reserves the right to make technological and aesthetic improvements to its models, including changes to the sizes and materials, without notice. The technical drawings do not define the details of the product. The measurements shown are indicative and may undergo changes. In particular, the dimensions relevant to the padded parts are subject to usage tolerances over time caused by the normal adjustment of the padding. For the specific information, please contact the dealer closest to you.
