
Springtime

SOFAS

Jean-Marie Massaud

Description

Springtime, the collection designed by Jean-Marie Massaud, develops the theme of the “à cabane” seat with deep seating sofas that can be shaded by a light textile or rattan cover to create privacy even en plein air. The sofas, with their rigorous linear frames, are designed in two seating depths, a chaise longue with either a single seat on castors and adjustable headrest or a double seat placed either in parallel or face to face. In addition there is the option of rectangular and square tables that can be converted into vase holders. The collection comes with other accessories, such as a pouf, small tables and an enameled steel brazier. The collection creates a consistent landscape, whose refinement is based on the use of white varnished aluminium frames, stainless steel holders and waterproof fabrics in three shades (i.e. grey, anthracite and acid green) that match the fleece upholstery of padded parts.

Technical information

Frame:

die-cast aluminium and extrusions with white polyester powder painting

Seat top:

HPL stratified laminate panel

Seat cushion:

shaped polyurethane of different density, cover in water repellent polyester fibre

Sofa back and armrest internal frame:

steel und wood

Sofa back and armrest internal frame upholstery:

shaped polyurethane, cover in water repellent polyester fibre

Canopy with drapes (STT):

polyester fabric, aluminium and steel extrusions with white polyester powder painting

Feet:

stainless steel

Ferrules:

thermoplastic material

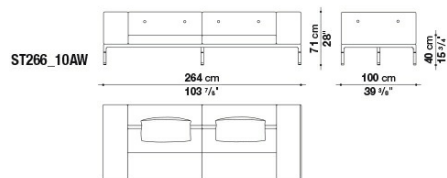

Cover cloth:

polyester on synthetic support

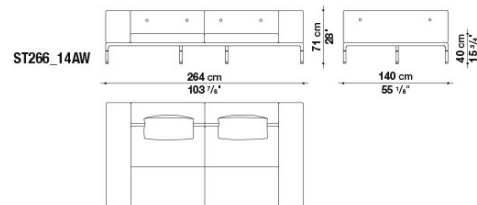

Cover:

fabric in limited categories
