CHAISE LONGUE

Jean-Marie Massaud

Description

This collection designed by Jean-Marie Massaud is made up of sofas and chaise longue with white polyester powder painted aluminium frames. The pieces have stainless steel feet, polyester fibre upholstery and cover in water-repellent fabric available in four colours. The chaise longue comes in two different models: single with wheels or double with reclining headrests to place parallel or face to face, also with the possibility of placing support elements between the two seats. Other small tables, such as square and rectangular, with mahogany tops can also be outfitted with cushions. The second deeper model plays on the concept of the canopy, a sort of shaded alcove covered in light polyester fabric that creates a very relaxing and intimate space.

Technical information

Frame:

die-cast aluminium and extrusions with white polyester powder painting

Seat top:

HPL stratified laminate panel

Seat cushion:

shaped polyurethane of different density, cover in water repellent polyester fibre

Reclining mechanism:

aluminium

Headrest cushion:

shaped polyurethane, cover in water repellent polyester fibre

Service element top (ST):

water-repellent multilayered wood panel, mahogany veneered

Feet:

stainless steel
